Netlify	4 years experience	Sanity CMS	1 year experience

PROJECTS

PROGRAMMING LANGUAGE DEVELOPMENT

FIXAPL 2025-26

Programming Language Creator, Web Designer, Developer

- Designed a programming language expanding and improving upon previous work by providing a new solution to a key design flaw in APL (fixed-arity function parsing)
- Implemented programming language parser and interpreter in TypeScript, including standard library of >80 functions allowing for convenient manipulation of multidimensional arrays
- Used SolidJS and TailwindCSS to create interactive code editor and REPL

GRAPHIC DESIGN

In addition to my web design work, I have done professional graphic design work advertising concerts for my father. I have experience with Procreate. [Click to view my graphic design portfolio.](#)
